Tab Collasyn was given to pt. Sanket Bendkhale 40 yrs old male who was on Antihypertensive once a day, but the BP was not controlled effectively. After starting Tab Collasyn BP is in normal range, his gastritis problem has reduced and general well being is good.

A 55 yrs old Mr Karve had BP 150/80 inspite of 3-4 antihypertensives. But after starting Tab Collasyn BD the BP is in normal range and at present he is on just 2 antihypertensive and is tapering it gradually

Thank..
